LINE P. O., Fulton Co., Ky., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The two dozen of your Sarsaca-Ella, ordered in September, came to hand, and, in acta-divisiting the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the Instances that have come under my observation, during the last two years, of the great curative properties of your Sarsaparills:

Mrs. Jeannette Martin, a highly respectable lady of my welchbarhood, aged sixty-five years, had been long affilicted with a cancerous ulcer, which finally reduced her to so helpless a condition, that she could not leave her bed. She tried the best medical advice in our county, without relief, and had given up all hopes of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sarsaparella. He did so, and in a short time returned, and purcase, I persuaded her son to take a bottle of your Sarsape-rilla. He did so, and in a short time returned, and pur-cioused another bottle, stating the first had had a decidedly good effect. She continued to use it until, after the use of ave or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost entirely recovered her health, and from her I received the account of her disease, and in about the same words I give it to you. This is but one of a number of cures under my observation—of very remarkable ones—performed by the use of your Sarsaparilla, in my neighborhood. The semand for it has steadily increased since its introduction here. Very respectfully, your obedient servant, WM. R. DICKINSON, P. M.

BOYLE COUNTY, Ky., Oct. 6, 1851.

for John Bull: Dear Sir—I have seen the most marvelius cure of one of my patients, by your valuable medicine—an old tasly, who had been afflicted from her childhood with scrofula, and various disasses of the brain. She was that y years old. It had run into something like leprosy, and she was the most frightful creature my eyos ever beliefed. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the consult with me in relation to her. We came to the consult sion that it was out of our power to relieve her; but, on going to my office, I accidentally picked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected, I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her same more. She is now taking the sixth bottle, and I consider her entirely cured. I take great pleasure in recommending your Sarsaparilla to the afflicted public.

Yours respectfully,

JOHN M. ROSS, M. D.

JOHN M. ROSS, M. D. 1. Thomas A. Ringo of Graves Co., Ky., for the benefit of mankind generally, do hereby certify, that on or about the 15th day of Octoler, 1847, I was attacked with a very severe pain in the lower part of the abdomen, which lasted but a few minutes, and moved into the left hip, and continued exceedingly painful for about five days, during which time I had a very light fever. At the end of that time the fever ceased, and the pain abated for a day or two, if a waigh it again returned, and was much worse than tenore. During all this time I was under medical treatbelove. During all this time I was under medical trest-ment. From a short time after I was taken, I was unable ment. From a short time after I was taken, I was unable to walk or shi up; the cip in which the pain was so bad commenced rising, until some time in January, when it burst, and a number of pieces of bone came out—as many is twenty, at least. Some of the pieces were three-fourtha of an inch long. Some time after this, a hard knot appeared on my right hip, also one on my right wrist, and one on my leg, below my knee. I continued to get weak and worse, and pain made its appearance in my right shoulder, and would move in my breast and stomach. At this time all persons gave me up to die. A physician then this time all persons gave me up to die. A physician then this me that, as a last remedy, I had better use MR. BUILL'S FLUID EXTRACT OF SARSAPARIBLA. After the use of the second bottle, the knot on my wrist com-BULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist commenced getting each. I opened it, and a day or two after, a pine of bone came out. My wrist soon got well, and I continued to gath strength. After I used the third bottle, I could get no moore for some four weeks, after which time I succeeded in getting three prore bottles. After using the three last bottles, the thot en my hip became soft; it was opened, and some ca uption ran out together with a small please of bone, an the sore soon got well, and the thot entirely diappeared. The sore on my leg also opened, and a piece of bone came out. I continued the use of the Sarsapeitilla until I used twelve bottles, and am now entirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the summer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my uncle, Thos. Neal, where I now live, and if any persons deabt this statement, I will be happy to converse with them, if they will call on me. Shreed,

State of Kentucky, Graves Co., Set.

This day personally came before me the undersigned, an acting justice of the peace in and for said county, and made eath in due form of law, that the above statement is true. Subscribed and sworn to, this 15th day of February, 1850.

S. P. MORSE, J. P. for G. C.

I, Irain Anderson, Clerk of the County Court of Graves County, State of Kentucky, do certify that S. P. Morse, whose name is signed to the above certificate, is now, and was at the time of signing the same, a justice of the peace, in and for said Graves County, duly commissioned and qualified as such, and that faith and credit are due all his official acts, as such.

official acts, as such. In testimony whereof, I have hereunto set my hand, and caused the seal of the County Court of said county to be hereunto affixed, this 18th day

of February, 1850. Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with disease, that refuse to give Buil's Sarsaparilla a trial. It is indeed hard to believe, but nevertheless, it is too true. What kind of testimony would it take to convince the few remaining disbelievers, that Buil's medicine will do more even than it promises? The doctor could produce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is useless to produce any more, and, indeed, it would cost a fortune to publish the many certificates that have been showered on Dr Buil. The largest manmoth sheet in America would not contain even the names of those surec, let alone full statements of their cases.
